Adverting to Government Order No.Fl.15/GF.135-18-8 dated 1st July 19, re the establishment required for the Multigraph Section of this office, I have the honour to state that part of the consignment of types ordered has been received and the receipt of another consignment is shortly expected. At present there are only two setters on Rs.30/- to whom the printing work has been entrusted and I find that they are unable to cope with the work which is steadily increasing day by day. In this office letter No.R.1431 dated 22nd May 19, sanction of Government was solicited for the bare minimum of establishment required to satisfactorily carry on for the present the printing work required for the office. There will be the need every now and then for urgent special work, which it would not be possible to take up with the existing limited staff of two setters. I had recently to issue a few lengthy circulars which for want of adequate staff I had to get printed on the Multigraph with the aid of the two setters allowing them to take their own time without regard to urgency or importance.

Again when question papers had to be printed last month for the Subordinate Accounts Service Examination I had to arrange for each paper being printed a few hours before it had to be given out. For this purpose the services of the Superintendent of the Budget and Resource Sec-

Section who was the only one in this office conversant with the working of the machines, had to be utilised and he had to devote his whole time for three days in getting the papers printed himself setting up types along with the two setters to get through the work in time. Notwithstanding this it was not possible to give out the papers at the prescribed hour. I have to arrange next month for printing the question papers for the Accountants Examination. Unless the Multigraph Section of my office is equipped with the requisite staff not only will other work be seriously interfered with, but the work of the Multigraph Section will also lag behind. Besides for want of staff it has not been possible to take up the work of printing small forms, counterfoils, &c, required for the office which have to be printed in the office itself. As types are being received full use should be made of the printing outfit obtained at such great cost if it is to serve the purpose intended. I therefore request that Government will be pleased to accord sanction at an early date to the entire scale of establishment applied for in this office communication of May last.

In the scale of establishment proposed by this office provision has been made for a Supervisor for the section on a progressive rate of pay 60-4-80. A separate whole time official for immediate charge of the Multigraph Section who will supervise and be responsible for the work of the section and also be in charge of the Machines and their accessories and types and materials is necessary. The Superintendent of the Budget and Resource Section has in addition to his own duties been attending to this work and as it has been found impracticable to continue this arrangement without its hampering his own work. I have entertained a man who has had experience of this work on a D for Museum against one or the existing vacancies in the scale of Accountants. As this arrangement can only be temporary, I solicit the favour of early sanction to the proposals contained in this office letter of May last.

I note below the scale of establishment proposed and that so far sanctioned by Government-

	Asked for	Sanctioned
1 Supervisor	R$.60-4-80	..
3 Setters	30-2-50	2 on R$.30 per mensem
1 Binder	on R$.20/- per mensem	..
1 Machine Minder	" 15/- "	1 on R$.15/- do
1 Attender	" 14/- "	1 on R$.14/- do

The appointments of one Supervisor, 3 setters and one binder remain therefore still unsanctioned. As the services of a boy would be necessary for sundry menial work such as cleaning and oiling the machines for inking &c I request that in addition to the above the entertainment of a boy on R$.7/- may also be kindly sanctioned.

The extra cost on account of the additional establishment proposed which would be about R$.1000 during the current year will be met by a suitable readjustment of the grants placed at my disposal if it cannot be met out of anticipated savings in establishment.

I have the honor to be,

Sir,

Your most obedient servant,

J. Satyanaj Ucq
